

# Mytime Watches - Mechanical Watch Repair Price Guide - August 2023

Prices are for full strip down service without spare parts or required additional repairs. Case back gaskets are included in the price where applicable. Glass gaskets and other gaskets are not. Prices quoted in the table below serve only as a guide. Prices for specialist tasks like wheel cutting and parts manufacture vary greatly and cannot be given in this list.

Repair requests will receive individual written estimates based on the work required. Re-bushing work on worn out watches usually costs 35 Pounds per bush and the replacement of cracked, damaged jewel holes starts at 45 Pounds per jewel plus the cost of the jewel hole.

The postage and packing charge for returning watches by Royal Mail Special Delivery within the UK is 15 Pounds. Quotes for international postage are given by request.
